For Immediate Release:

Neuros Medical Commences Product Development Effort with Battelle

Cleveland, OH, December 7, 2009 – Neuros Medical, Inc., a medical device company announced today the commencement of their product development effort to generate innovative neurostimulation technology for the treatment of chronic pain. To aid in the technology development, Neuros Medical has tapped [Battelle](#) to develop a neurostimulation device, which will be led by Dr. Zi-Ping Fang, Chief Technology Officer at Neuros Medical.

“I am very excited to be a part of this key milestone in our Company’s development,” said Dr. Fang, “taking research from the bench to the bedside is a pivotal part of the commercialization process, and the utilization of Battelle is a positive step in the process.”

Bill Dunlevy, Vice President of Medical Devices and Diagnostics at Battelle added, “We are excited to be working with Neuros Medical in their novel technology. This is a key step in achieving Neuros Medical’s goal of helping patients suffering from chronic pain conditions.”

“The Battelle engagement enables us to further create value for the Company, but also help us get closer to the goal of providing a proven chronic pain treatment for patients worldwide,” stated Jon J. Snyder, President and CEO of Neuros Medical.
